One Awards Bespoke Accreditation

Here at One Awards we understand that when it comes to learning, one size does not always fit all. We offer our customers the opportunity to develop new accredited units that are designed to meet the precise needs of their learners.

We offer you the opportunity to accredit courses developed by you to meet the specific needs of your learners and/or customers.

All of our bespoke units are written in the same straightforward style and format. They have a clear set of learning outcomes and assessment criteria. Our units enable flexible teaching methods and the development of versatile assessment activities.

Each unit is benchmarked to a level and assigned a One Awards credit value – this is the time taken by learners, on average, to meet the requirements of the learning outcomes of the unit.

One Awards' Bespoke units are written, and quality assured to be comparable with the national standards for credit-based assessment but are not included in any regulatory framework.

For those not looking to develop new and unique units, or in addition to new units, we offer a well-resourced unit bank available solely to our centres with Entry Level through to Level 5 units available.

Benefits of One Awards Bespoke Units:

1. Provide the opportunity to accredit courses developed to meet the specific needs of their learners e.g. under Local Flexibility arrangements.
 2. Units are tailor-made to your requirements and meet national standards.
 3. Each unit is assigned a level and credit value.
 4. Each unit is approved and quality assured by One Awards.
 5. Learners receive a certificate for their achievements.
 6. One Awards Accreditation can meet the specific requirements and flexibilities demanded by employers.
- 

How is Bespoke Accreditation Assessed?

- Units are internally assessed by the centre and externally verified by One Awards External Quality Assurer.
- One Awards Accredited Units allow for a flexible approach to assessment.
- May be portfolio based, some units assessed by controlled assessment and can be delivered and assessed online.
