

# Remote Invigilation Practice Training

Are you confident in your remote invigilation practice? Would you know how to respond to unexpected scenarios during an exam situation?

## Session Content

This training programme will support you and your exams team to develop your remote invigilation practice and ensure that it meets the JCQ standards and requirements. Our short, sharp online workshops will give your staff the confidence to deal with any situation presented when remotely invigilating controlled assessments and exams.

## What the courses involves:

The full course is delivered as a 2½ hour online workshop.

## What does the training involve?

The course consists of 1 unit - **How to Invigilate Remotely:**

The unit will develop learners understanding of how to invigilate an online test or examination. Additionally, the learner will understand the procedures to follow when handling exceptional events which may occur during an examination

## The course is assessed by the following method:

Each unit consists of knowledge assessments. The knowledge is assessed by the completion of a multiple-choice question test at the end of each unit.

## Who would benefit from his course?
